COMPANY PROFILE

MedSurge (MedSurgeTek Inc.) is a technology company focused on healthcare, composed of people with hospital experience, clinical background, and technology expertise and experience... thus giving us the advantage as we are aligned with the hospital culture and environment. With our footprint in supplying combining technology products in medical, surgical, healthcare Engineering & IT areas to different medical centers in the country and as a marketing innovation arm in the SEA region.

Our core team has more than 80 years of combined experience in healthcare facilities locally and in the USA. Our technology team is exposed to the best practices and standards in healthcare.

We also solidified our Healthcare IT & Informatics portfolio with the stronger technology & technical core team by offering Information and Communication Technology (ICT) software and hardware, Vital iPrograms (VIP) Plus products & services towards digital transformation.

With our holistic approach, from Clinical communication, Interoperability, Data Security, EHR/EMR Optimization, Telehealth, Data Analytics, Patient engagement, Predictive medicine, AI etc., we witness and feel every beat of digital transformations proving that our mission of providing "combining technology solutions" are now part of healthcare institutions that provides them operational productivity and a business strategy.

MedSurge started operation in September of 2013, we pioneered in:

1. Implementation of a full IP Based Nurse call system project in the Philippines. In early 2014, in a series of projects we managed to include a Clinical Workflow Solutions that complemented & integrated the nurse call system for nurse rounding. This IP based system can be integrated with EMR and infotainment systems.

2. Use of WiFi Phones by nurses is integrated into the nurse call system. With a full-IP nurse call platform we integrated VOIP in 2016 for voice communication between WiFi phones- nurse station to Voice in Ensuite/toilet communication for patient safety & experience.

3. Real-Time critical environment monitoring (Temp., RH, ACH & Pressure) in the Operating room with customized integration software to the building management system (BMS).

4. Implemented the first Secure clinical & team collaboration mobile application platform in the country. This serves as the official clinical communication of doctors, nurses, and hospital staff. This mobile communication is integrated with EMR.

5. Providing instrumentations & redefine retraction in surgery to innovative General Surgery, Laparoscopic procedures, Lap Robotics & Bariatric approach/technique in surgery in major medical centers in the country and in SEA region.

6. As a healthcare technology company, we have Vital iPrograms (ViP+) and Services that handle Service Management including users training in clinical nursing Informatics, Healthcare ICT, Biomedical service standards and guidelines aiming best practices.

7. We are the first 3rd party service provider in a multinational laboratory company to do preventive maintenance and software modifications for the whole Philippines.

8. In 2024, we launched Patient Experience platform like smart inpatient room technology including IP Based nurse call system, Infotainment System, Real-Time Location system (RTLS), Intelligent Nursing workflow solutions with interactive whiteboard, digital door display etc.

Healthcare IT Products, Programs and Services

MedSurgeTek's Vital Intelligent Program (VIP+) is a comprehensive and innovative solution that combines Healthcare IT, and Informatics to optimize the performance and efficiency of healthcare facilities. VIP+ is designed to enhance patient care, improve workflow processes, and streamline operations.
Here are some key features and benefits of MedSurge VIP+:

1) Healthcare IT Solutions: MedSurge VIP+ incorporates healthcare IT solutions to streamline processes and enhance data management. This includes IP Based Nurse call system, Clinical mobile communications, Smart patient rooms, telemedicine platforms, and more. By leveraging technology, MedSurge VIP+ improves access to patient information, facilitates communication, and enhances overall efficiency.

2) Informatics and Analytics: MedSurge VIP+ utilizes informatics and analytics to collect and analyze data from various sources, providing valuable insights for decision-making and process improvement. By leveraging data analytics, VIP+ helps identify trends, optimize resource allocation, and improve patient outcomes.

3) Integration and Interoperability: MedSurge VIP+ focuses on integrating various systems and technologies within the healthcare facility to achieve seamless interoperability. This includes integrating medical devices, EHR systems, and other healthcare IT solutions. By enabling data exchange and interoperability, VIP+ improves communication, reduces errors, and enhances overall efficiency.

4) Compliance and Regulatory Support: MedSurge VIP+ ensures compliance with industry regulations and standards, such as HIPAA and FDA guidelines. MedSurgeTek stays updated with the latest regulations and provides guidance and support to help healthcare facilities maintain compliance.

5) Training and Support: MedSurge VIP+ includes comprehensive training programs for healthcare professionals to ensure they are proficient in utilizing the integrated systems and technologies. MedSurgeTek provides ongoing support to address any technical issues and ensure smooth operations.

6) Cost-Effective Solution: MedSurge VIP+ is designed to provide a cost-effective solution for healthcare facilities. By optimizing equipment performance, streamlining processes, and improving efficiency, MedSurge VIP+ helps reduce operational costs and enhance the return on investment.

MedSurgeTek's Vital Intelligent Program (VIP+) offers a holistic approach to Healthcare IT, and Informatics, providing healthcare facilities with a comprehensive solution to improve patient care, streamline operations, and enhance overall efficiency. Contact MedSurgeTek to learn more about how MedSurge VIP+ can benefit your healthcare facility.

At **MedSurgeTek**, we are committed to providing exceptional service and support to healthcare facilities, helping them maintain their medical equipment at the highest standards.

MedSurgeTek's Vital Intelligent Program (VIP+) is a comprehensive and innovative solution that combines Biomedical, healthcare IT, and Informatics to optimize the performance and efficiency of healthcare facilities. VIP+ is designed to enhance patient care, improve workflow processes, and streamline operations.

Here are some key features and benefits of **MedSurge VIP+:**

1. Biomedical Services: MedSurge VIP+ includes a range of biomedical services to ensure the proper functioning and maintenance of medical equipment. This includes preventive maintenance, calibration, repair, and inventory management. By keeping equipment in optimal condition, VIP+ helps reduce downtime and improve patient care.

2. Healthcare IT Solutions: MedSurge VIP+ incorporates healthcare IT solutions to streamline processes and enhance data management. This includes electronic health record (EHR) systems, medical imaging solutions, telemedicine platforms, and more. By leveraging technology, VIP+ improves access to patient information, facilitates communication, and enhances overall efficiency.

3. Informatics and Analytics: MedSurge VIP+ utilizes informatics and analytics to collect and analyze data from various sources, providing valuable insights for decision-making and process improvement. By leveraging data analytics, VIP+ helps identify trends, optimize resource allocation, and improve patient outcomes.

4. Integration and Interoperability: MedSurge VIP+ focuses on integrating various systems and technologies within the healthcare facility to achieve seamless interoperability. This includes integrating medical devices, EHR systems, and other healthcare IT solutions. By enabling data exchange and interoperability, VIP+ improves communication, reduces errors, and enhances overall efficiency.

5. Compliance and Regulatory Support: MedSurge VIP+ ensures compliance with industry regulations and standards, such as HIPAA and FDA guidelines. MedSurgeTek stays updated with the latest regulations and provides guidance and support to help healthcare facilities maintain compliance.

6. Training and Support: MedSurge VIP+ includes comprehensive training programs for healthcare professionals to ensure they are proficient in utilizing the integrated systems and technologies. MedSurgeTek provides ongoing support to address any technical issues and ensure smooth operations.

7. Cost-Effective Solution: MedSurge VIP+ is designed to provide a cost-effective solution for healthcare facilities. By optimizing equipment performance, streamlining processes, and improving efficiency, MedSurge VIP+ helps reduce operational costs and enhance the return on investment.

MedSurgeTek's Vital Intelligent Program (VIP+) offers a holistic approach to Biomedical, Healthcare IT, and Informatics, providing healthcare facilities with a comprehensive solution to improve patient care, streamline operations, and enhance overall efficiency. Contact MedSurgeTek to learn more about how MedSurge VIP+ can benefit your healthcare facility.
